Dear Terisha,

I can't express to you how much Nick and I both enjoyed your couples massage class. It was a perfect wedding gift to give to my new husband. Before the wedding Nick was constantly asking me for a massage and back rub, and I only cringed when he asked because I disliked how my hands would cramp up and I would become tired after five minutes, leaving him unhappy.

After our class we were able to try new skills for each of us. You were able to give us great pointers so that we weren't tired after giving a massage. Specifically my favorite was how to use my whole body to generate the strength when massaging Nick's back. This has eliminated my hand cramping and has made him happier because I am willing to massage him longer.

We have been very happy with your services and hope that with practice we will be back for session number two. It has been a great experience and I hope to refer all of my friends to take advantage of your class. My husband is happy and so am I!

Sincerely,

Mary Paige Larsen
