Re: Letter of Endorsement

Dear Susan,

After personally participating in your coaching program, I can confidently speak to the transformative experience you provided. The coaching I received has given me the tools and techniques necessary to manage negative thoughts, recognize their onset, and redirect that energy in a positive and constructive way.

What sets you apart is not only your proficiency but also the warm and friendly demeanor you possess. From our first session, I felt at ease and safe within the coaching environment. You fostered a welcoming space allowing me to fully share without hesitation, knowing that I would receive unbiased support in return. In addition, the coaching style is one of empathy. Throughout our sessions, there was care and concern that made it evident you were fully invested in my success and growth.

After working with you, I have not only learned techniques to circumvent least effective thoughts but also gained a renewed perspective on that which makes me who I am. The insightful coaching has offered me the tools to navigate the challenges that come my way thereby helping to overcome obstacles that hinder personal and professional growth.

It is an honor to endorse you, Susan Honea, as the coach who possesses the expertise and empathy needed to facilitate life-changing transformation.

Best Regards,

Portrait Photographer
