Terisha,

I just wanted to thank you for being such an outstanding massage therapist. In the past 5 or 6 visits to your office, you have helped me with muscle strains or lower back pain associated with my line of work, which is construction.

In my tender 43 years, I do not believe I have worked with a therapist with your extent of dedication and knowledge.

I believe in leading by example, and rather than just telling crew members what to do, I often can work with them in achieving a goal. Rather than having to work with pain and reduced capacity when I have a strain or lower back pain, your therapy has helped me to stay healthy.

My visit to your office today was no exception.

I would not hesitate to recommend you, and as a way of giving back, have done so on several occasions.

Thanks again,

Reid Horne
