This is a letter of appreciation of Terisha Tatters' skills as a massage therapist. I have been getting massages regularly off and on for 15 years from different therapists. Terisha is one of the best! She seems to know exactly where to touch and with what degree of pressure. Her touch is healing. Her demeanor is a combination of sensitivity and professionalism. Terisha is knowledgeable about her field from a broad perspective, including utilizing different modalities for healing the body (like her pilates instruction) and referrals to other professionals to enhance overall care. I trust her and feel very comfortable recommending her to anyone who is looking for therapeutic well being and relief from pain.
