Konstantin Lozovyi
KL Contractor Plumbing
3304 High Noontide Way
Acworth, GA 30101

Dear Mr. Lozovyi,

It's difficult to summarize the 14 years that we have been working together. Your phone rang when I was cleaning up the mess from another plumber that left a pinhole leak in a water line. I understand that mistakes happen in projects. He fixed the leak, was gone in a flash, and left me to clean up the drywall mess in the garage. In that moment, I decided I needed a plumber that would be responsible for their piece of the project.

The difference in the way you run your organization was immediately apparent. As a master plumber, you are able to figure out solutions to difficult remodeling problems from drain vents that are not in the right place for moving the kitchen sink to making sure that a laundry drain is big enough for the new washing machine. I can design the floor plan and cabinetry, and then call you.

I always hear "no problem".

This allows me the freedom to design my clients the living space that they want. They get a house that fits their lifestyle that they have dreamed about for years. I get the peace of mind that the project will be done correctly and corners will not be cut. You are just as invested in my clients as I am. In the end, our teamwork produces a superior product and I couldn't do it without KL Contractor Plumbing.

Best regards,

Mike Smith
