Angie,

I want to thank you personally for the manner in which you handled my daughter Samantha's recent real estate transaction. Like most Moms, we want the best for our children, and WOW did I hit a grand slam when I referred you to Samantha for the sale of her Woodstock townhome and the purchase of her new single family home in Canton!

I was impressed by how professional you were, how you never let her age or experience become a factor in how you treated her throughout the entire process. I ask Samantha what she had to say about you and she replied,

"I loved that she made sure I got what I wanted during the house search and that she was patient with me. She was fierce and did not back down on certain things and represented me well. She was very responsive and made sure I got what I wanted when it came to the little things like HOA docs or utility info. In the end of it all, she became more than a realtor, but also a friend. I wouldn't use or recommend anyone other than her."

Thanks so much Angie for taking care of my little girl like she was your very own!

Sincerely,

Linda Lullie
