Dear David,

I wanted to express my appreciation for the great work that your company did in solving the recent flooring issues at our condominium complex. I live in an older complex with four foyers. Last year, our HOA Board decided to renovate our four foyers. We discovered that the flooring had been down for almost 50 years and the floor joists had understandably suffered some bowing and deterioration over time.

We had an engineer assess the issues, and then got 2 bids that seemed very expensive. I mentioned to a board member that i knew of someone through my networking group that i had heard on a weekly basis describe how his company had helped thousands of homeowners around Atlanta solve problems with their homes.

David came out promptly and we walked the property and looked at the issues. I emailed him the engineering report containing the structural recommendations, and David crafted a bid to meet the requirements. His bid was several thousand dollars less than the other bids we received.

His workers were on site for about 9 days removing the old flooring, including at least 5000 lbs of concrete. The work was completed in a very timely manner and the worksite was cleaned everyday before they left. I have had HOA Board Members tell me how pleased they were with the work and the workers.

David was also able to schedule the work quickly as we had already scheduled the new tile flooring to be installed. MiniJobs performed the work as proposed, both on time and on budget. Thanks to the folks at MiniJobs, everyone at my condominium complex will be enjoying freshly renovated and repaired foyers while they relax and enjoy their home.

Regards,

Bo Riddle
